

TECHNOLOGY & RELIABILITY

Designed to Make You #1

UNICOM PROTECTION is a U.L. (Underwriters Laboratories) listed facility. Our instantaneous back-up and total redundancy of equipment assures continuous monitoring of your customers, even in adverse conditions.

What makes UNICOM PROTECTION outstanding?

Power systems are backed up by fully redundant uninterrupted power supplies, with automatic transfer to generator power without human intervention.

Computer systems are fully mirrored with automatic switch over to assure continuous service.

Storm teams carry pagers 24 hours a day to respond to emergencies and critical conditions.

Other facilities without these important features may not be able to provide the very thing UNICOM PROTECTION gives you—reliable monitoring for your customers.

We can handle all of the following formats ...

3 - 1	Contact ID	Acron Superfast	Modem II
3 - 1 Extended	SIA	Acron	Modem III
4 - 1	ITI	FBI Superfast	AES
4 - 2	Westec	Modem	Uplink
